Introduction

State budget

In 2012 the actual revenue of state budget was 6.4 billion EUR, which accounted 103.4% of the planned amount in 2012. Expenditures exceeded revenues during the year 140 million EUR. State budget of 2012 was 6.2 billion EUR.

Consumer price index

Consumer price index (CPI) in January 2013 compared with December increased 0.7%. Compared with same period of previous year prices of goods increased 2.9% and services increased 4.4%. On average, CPI were 3.4% more than in January 2012. Food and beverages prices increased 5.5% compared with the same period of previous year. At the same time administered prices increased 2.9% and non-administered prices increased 3.6%.

Industrial production

According to preliminary data, in 2012 the production of industrial enterprises remained on the level of the previous year. Export increased, but the sales on the domestic market decreased.

A small growth in the production of manufacturing that took place at the beginning of 2012 compared to the same month of the previous year was replaced with a decline in March, which continued until the end of August. The main reason for the fall in production was the high reference base in the manufacture of electronic products, but also lower external demand had a negative impact.

In December 2012 compared to November, the seasonally adjusted industrial production fell 1%; the production of manufacturing 2% during the month.

Producer price index (PPI)

In December 2012 compared with the same period of previous year the producer price index increased 2.1%, of which in manufacturing it increased 2.0%. Compared with previous month PPI decreased 0.2%.

Retail trade

In December 2012 the retail sales in constant prices increased 5.1% compared with the same period of previous year. Total amount in short-term statistics was 447 million EUR. Compared with previous month retail trade in current prices increased 17.5%.

Registered unemployment

According to the data of the Labour Market Board (LMB), there were 39.7 thousand unemployed registered at the State Employment Offices at the end of December 2012, which is 6.0% of the population between 16 and pension age. Compared with previous month unemployment rate increased 1.5% and compared with same period of previous year decreased 16.3.

Export price index

The export price index (EPI) decreased 0.1% in December 2012 compared to November 2012 and decreased 0.3% compared to December 2011. EPI takes into account the exchange rate changes. The price data are collected directly from major exporters.

Export and import

In 2012 first eleven months the value of foreign trade turnover by special trade system was about 24.3 billion EUR, of which export was 11.7 billion EUR. Export increased 5.2% compared with same period of last year. For main trade countries the positive trade balance increased to Sweden, Russia, Norway and Turkey. In export and in import the proportion of machinery and appliances was the largest (both 28.7%) The positive balance was the largest in the trade of wood and articles of wood (562 million EUR) and negative balance in the transport equipments (539 million EUR).

Average exchange rates for foreign currencies

One USD average cost was 1.32 EUR in January 2013. Compared with January 2012 EUR exchange rate increased 2.5% compared with USD and decreased 0.6% with RUB.

Weighted average annual interest rates of loans and deposits

Average interest rates of Euro loans to non-financial corporation was 3.20% and to households 5.85%, Euro deposits correspondingly 0.42% and 0.53% in December 2012.

Deposits and loans in commercial banks

In December 2012 deposits increased 2.3% and loans decreased 0.5% in commercial banks compared with previous month. Deposits total amount was 12.6 billion EUR of which about 41% were individual deposits. Loans total amount was 14.1 billion EUR, of which about 49% were individual loans. Without collateral loans volume was 9.5% from all loans. Compared with the same period of last year deposits increased 9.0% and loans increased 0.1%. Individual deposits increased (9.2%) and individual loans decreased (2.2%) compared with previous year. Total loans exceeded deposits 1.5 billion EUR or 10.7%. Total individual loans and lease exceeded total individuals deposits level by 29.6% or 2.2 billion EUR.

Balance of Payment

In November of 2012 flash estimate of current account was 58.2 million EUR. Foreign direct investment (FDI) to Estonia was -55.2 million EUR and reserve assets 0.9 million EUR.

Results of business tendency surveys

Industry

The industry enterprises' confidence in December was lower than the long-term average, induced by negative expectations for the coming 3 months.

Construction

The confidence index shrank to -10 in December, but is higher than the long-term December average (-14).

Trade

The confidence index declined in December, but was higher than the long-term seasonal average.

Service

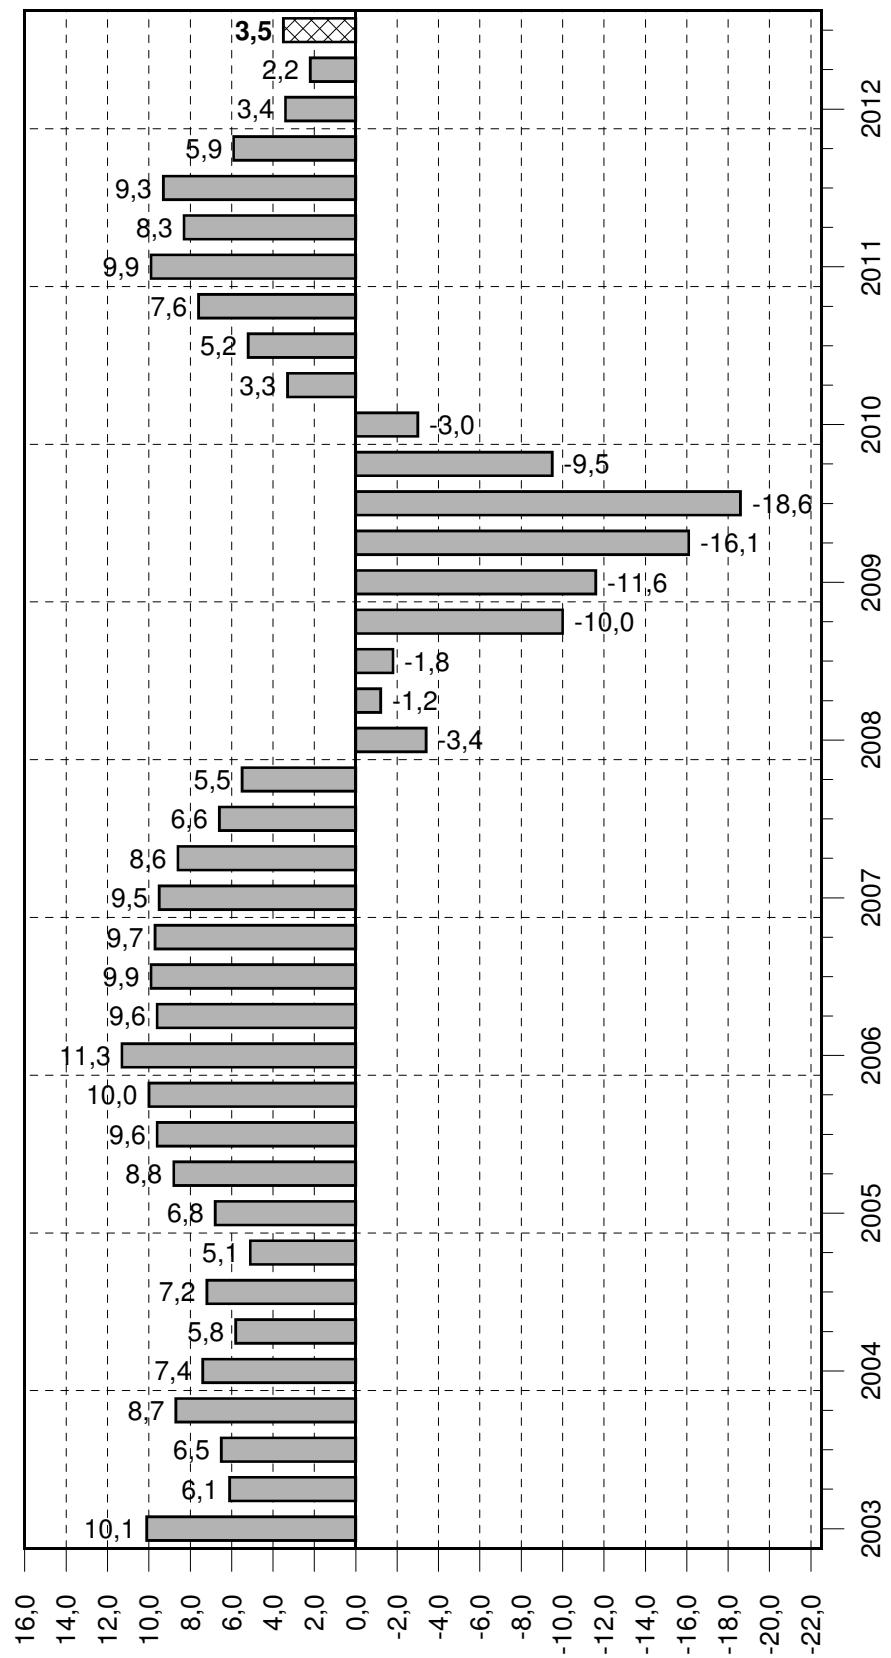

Economic conjuncture in the services sector is still good for the season. Successful development of IT enterprises would continue, more problematic is the situation in the transport sector.

Consumer

Consumer confidence in December was better than at the end of last year and at the same level as in September and the historical mean (-10).
